Problem Statement Template

| Problem Statement (PS) | I am (Customer)                     | I'm trying to                                                        | But                                                                             | Because                                                                         | Which makes me feel                                           |
|------------------------|-------------------------------------|----------------------------------------------------------------------|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------|---------------------------------------------------------------|
| PS-1                   | A tenant looking for a rental house | Find a suitable house based on my budget, location, and requirements | Property information is scattered across brokers, newspapers, and social media  | There is no centralized platform providing accurate and updated rental listings | Frustrated, confused, and wastes my time searching for houses |
| PS-2                   | A property owner                    | Reach potential tenants and manage rental property listings          | It is difficult to advertise properties and communicate with interested renters | Traditional methods provide limited visibility and management capabilities      | Inefficient and unable to reach a wider audience              |
| PS-3                   | An administrator                    | Monitor and manage all users and property listings on the platform   | There is no central dashboard to oversee platform activities                    | Traditional systems lack administrative control and monitoring capabilities     | Unable to ensure platform quality and data integrity          |

Problem Summary

 Build for free 

### Tenant Problems

---

- Scattered property information
- No centralized search platform
