USER: Tenant / House Seeker **THINKS**

I need a house within my budget.
 Is this property genuine and verified?
 Can I find a house near my workplace or college?
 Are there any hidden charges?
 How can I compare different properties easily?

 FEELS

Frustrated by visiting multiple locations.
 Confused by too many rental options.
 Worried about fake property listings.
 Stressed due to time constraints.
 Excited to find a suitable home.

 SAYS

I need a house quickly.
 Show me properties in my preferred location.
 I do not want to pay broker commissions.
 Can I trust this property listing?
 I need complete property details before deciding.

 DOES

Searches rental properties online.
 Compares rent prices and locations.
 Contacts property owners.
 Applies filters based on requirements.
 Visits shortlisted properties.

 PAINS

Difficulty finding verified rental properties.
 Lack of accurate and updated property information.
 Time-consuming property search process.
 Dependence on brokers and intermediaries.
 Limited communication with property owners.

 GAINS

Quick and easy property search.
 Verified and reliable property information.
 Easy comparison of rental properties.
 Direct communication with property owners.
 Time-saving rental management process.
 Secure and user-friendly platform.

System Context

The HouseHunt – House Rent Management System is designed to directly address the pains identified above. By providing a centralized, verified, and secure platform, the system converts user frustrations into gains — enabling tenants to find properties quickly, compare them easily, and communicate directly with property owners without broker dependency.
